5. In every type of assembly, permanent preparatory commissions for the Convention must be elected in order to build the nucleus of a future organization. The presidiums of the District and Zone Conventions will be transformed into the directorates of the permanent organizations to be created.
6. All the political work in preparation for the Convention of the Federal District should be made on the basis of the Manifesto of Convocation of the Convention for National Emancipation, signed by personalities, and on the basis of the Manifesto of the Federal District Convention, having as its central aim the re-establishment of relations with the Soviet Union. This political line was opened in the Prestes interview in the Imprensa Popular of 24 November 1953.
